

Campbell College, Belfast

Education is about preparing pupils for life in the fullest sense.

We want our pupils at Campbell to live happy and fulfilled lives. We would like our pupils to find a passion for things in life, an interest in and respect for others and their worlds, the chance of challenge and achievement, an attachment to the life of the mind.

At Campbell College, an HMC school, we aim to promote all personalities, all talents and interests and to inculcate a culture of mutual trust. Academic and vocational study is vitally important to this school and we expect our students to reach for high grades, but Campbell's view of education celebrates the creative, physical and spiritual as well as the intellectual. Above all, we want our students to leave this school with an assured set of values; we want them to believe that they can make a difference in society, we want boys to leave this school with things that are going to matter to them for the rest of their lives.

Campbell College is a day school for boys from Kindergarten - Sixth Form and offers boarding places from Years 8-14.

Fees are from £1900 a year and Scholarships and Bursaries are available for academic, music, art and sport achievements from Years 8 – 14.
