

Styling hair for Edinburgh's discerning men, be they professionals of all ages, radio presenters, footballers or rugby players and even teenagers wanting a funky hair cut, The Player's Lounge has carved its niche. It prides itself on its professionalism and passion in providing men with the complete grooming spectrum in an unpretentious and utterly male environment. Highly trained stylists are dedicated to providing individual attention to detail for each of their clients, including an in-depth consultation over styling advice, hair care and a scalp massage as standard.

The contemporary surroundings exude maleness with leather sofas, ipods and PSPs in the reception area and LCD televisions at each cutting station. Busy clients who need time-out to have their hair cut or styled, walk into an atmosphere which is both relaxed and unpressured providing that essential 'breathing space' – and feel totally relaxed. For clients who need to keep in touch, there is a wireless network so that even being out of the office, no business time is lost.

The Player's Lounge provides a whole host of additional services such as:

- Hot shaves
- Wedding packages for grooms, best men, the ushers and any other members of the male entourage for a complete make-over before the big day
- Facials, the Urban Cleanse or an Express version – a new and very popular service

One of the few men's salons in Edinburgh to offer flexible hours, booking into The Player's Lounge for a hair cut at the very least, is without doubt a pleasant experience.
