

Kushis Restaurant

"It's a family business that has survived six decades and, although I have seen changes in location and decor and a few additions to the menu, one thing has remained consistent - the hearty welcome extended by the family. I have been going to Khushi's since the late 1970s in its various guises. It is particularly known for its bhuna, an old family recipe which has grown in popularity over the years. If you are looking for good authentic Indian cuisine and a warm welcome, it has to be Khushi's."
