The Best of Both Worlds

We believe that children of primary school age learn best in a co-educational environment and for that reason The Mary Erskine & Stewart's Melville Junior School is a fully co-educational school for children from Primary Start to Primary 7. We believe equally strongly that as girls and boys leave our Junior School their academic and educational needs are best catered for in a single-sex teaching environment and for that reason our girls join The Mary Erskine School and the boys join Stewart's Melville College from S1 to S5 before coming back together again to enjoy a fully co-educational Sixth Form experience.

The best start in life

At all stages there is a very strong commitment to lasting values of respect, trust, commitment and care for others and we believe that girls and boys who grow up in this environment are most likely to fulfil their academic and personal potential and leave school ready to serve society and enjoy all the opportunities and challenges of adulthood.

Preparation for University

Just as the start of a child's education is vital so too is the final year of preparation for university. Our Sixth Form concept embraces all that is best in the schools, both academically and through an enormous array of extra-curricular opportunities, while also giving our students significant opportunities to take responsibility for aspects of school life in an environment in which they are respected as young adults.

Happy community

The schools have an outstanding reputation for many sports, meeting the needs of children who want to compete, for the highest honours as well as those who simply enjoy participating. The commitment to the Performing Arts is also extraordinary and is reflected in our latest building project, the transformation of the Stewart's Melville College Assembly Hall into a tiered Performing Arts Centre.

Flexible childcare

We know that life doesn't always fit into a strict daily schedule, so we have developed flexible childcare solutions to suit each family's needs. Our e-Plus programme provides care from 7.50am to 6pm. The purpose-built play centre provides a range of activities including physical play, science investigations and sensory rooms for your child and their friends until you finish work.

Education in the Erskine Stewart's Melville Schools is about individual children. Nothing matters more to us than helping girls and boys to develop into responsible, caring young people who have very high expectations and who are always willing to challenge themselves both within the classroom and beyond.

If you would like to find out more about our schools you are welcome to visit us at any time during the year.
