

► Land Securities continued...

progress, has also been implemented – an innovative arrangement in the development world.

An education programme has been supported by Land Securities, encouraging secondary school pupils across North Kent to learn more about Ebbsfleet Valley and the benefits of regeneration in their role as employees, employers and homeowners of the future.

Land Securities is progressing a development which will draw new businesses to the area, but also provide new jobs to existing residents, as well as facilities for the community as a whole. This was a view echoed by Prime Minister Gordon Brown on a recent visit.

He said: “This project will make a huge difference to local communities in Dartford, Gravesend and North Kent. It will provide

affordable homes and jobs for local people. And alongside this regeneration, it is vitally important that we create the infrastructure for new communities and ensure that the schools, healthcare and leisure facilities match the needs of the local people.”

Ebbsfleet Valley is an ideal location for a 21st century business. With easy travel connections to both London and Europe, and planned office space with cutting edge technology, it is set to be a huge draw. New businesses will emerge within the community itself, and thousands of jobs will be created. Ebbsfleet Valley is set to be a monumental success story for Kent for decades to come.
