

Drytech is a specialist trade subcontractor based in the South-east of London. Having established itself as one of the leading contractors in its field Drytech enjoys an excellent reputation and client base. Offering a range of services Drytech undertakes projects from £250,000 to £5,000,000 in the following disciplines:

- Drylining
- Partitioning
- Plastering
- Fire Protection
- External Envelopes including render and framing
- Suspended Ceilings
- Structural Steel Framing
- External Facade

Due to Drytech's geographical position it is able to easily work within the M25 including the City, with excellent labour resources this allows Drytech to meet the demands of both large and small projects. A flexible and professional approach ensures that whatever the type of project, commercial, residential, retail or stadium, the project is completed to programme to the highest quality.

Technical capability and the desire to achieve high standards has enabled Drytech to develop a rightly earned reputation as a leading specialist trade contractor, the first choice for many of the leading principal contractors.

Drytech is an established company with a growing reputation and order book. Our policy is to offer a service which exceeds others and with particular emphasis on technical capability and professionalism.

Inspire Creative Developments Limited
Inspire is based in South-east London working in the General Builders Work Sector of the Construction Industry. Our area of operations covers London and its home counties.

We are currently undertaking General Builders Work Packages on several prestigious developments within London and are looking to increase both turnover and client base as part of our policy of controlled expansion.

Inspire provides a range of building services from minor works through to major construction projects, including stand alone buildings and complete fit-out packages, mainly in the commercial and domestic sectors. We have also completed significant amounts of both reactive and planned water damage repair work for several of the major insurance companies. One of our latest projects involves the complete strip out and rebuild of 73 occupied water damaged units in South-east London. A rolling programme of moving owner/occupiers out of their flats had to be incorporated as part of this project to allow access during the construction of the continuous programme of works.

Inspire also provides general building works, planned maintenance, site hoardings, fit-out of marketing suites and show units, site enabling works, strip outs, after care reactive maintenance works to both commercial and residential units etc.

We have recently secured a number of high profile projects within London and its surrounding counties, including work on the new Wembley National Stadium, a high class office re-fit in London's Mayfair and a Hotel re-fit and refurbishment at London's Savoy Hotel etc.

If you feel we could be of service to you, please contact us on the details below.
